

CUSTOMER SELF-SERVICE PORTAL

GIVE CUSTOMERS 24/7 SELF-SERVICE ACCESS

Acumatica Customer Portals, part of the Customer Management Suite, enable you to create a customer portal experience to help you work and communicate with customers more efficiently.

REDUCE STAFF WORKLOADS, INCREASE CUSTOMER SATISFACTION

- **Empower your partners and customers.** Helpful tools enable customers to see all the relevant information about their interaction with your organization and perform account-related activities online. You can also reduce customer support questions by providing anytime access to your knowledge base and document sharing.
- **Leverage your Acumatica investment.** Acumatica Portals use the same database and interface as your own Acumatica instance, so you can efficiently create online experiences including B2B ordering* and self-service access customer portals.

*The B2B Portal works with and requires Acumatica’s Customer Management and Distribution Management Suites.

CUSTOMER SELF-SERVICE PORTAL FEATURES AND CAPABILITIES

Customer Self-Service Capability

Grant customers 24/7 access to their account information, create and manage support cases, and create and track online orders—all without picking up the phone or sending an email.

Financial Overview

Give customers access to all historical documents, contracts, balances, due dates, payments received, and amount due.

Up-to-date Pricing and Inventory Details

Ensure accurate inventory and pricing is always displayed because it is connected to the same database as your Acumatica Distribution Management applications.

Case Management

Allow customers to submit new cases, which seamlessly flow into Acumatica ERP. The customers can view the cases they submitted, track the status of each case, provide additional information when required, and reopen closed cases.

Knowledge Base

Allow customers to search for answers to their questions, allowing more customer self-service and generating fewer support calls.

Document Sharing

Provide a secure location to share documents with customers, such as marketing material, educational material, company policies, and FAQs, without building a separate web page.

Online Ordering

Let your business partners browse inventory and place orders on-line 24 hours a day, 7 days a week. The customer can track the status of the order, shipments, invoices.

Online Catalogue

Give your customers access to the products you sell with their descriptions and images. You control which products are visible to each user and which warehouses goods can be shipped from.

THE ACUMATICA ERP DIFFERENCE

Acumatica delivers a full suite of integrated business management applications unlike any other ERP solution on the market today.

STREAMLINE OPERATIONS

Manage your business more efficiently:

- Automate processes
- Control workflows
- Access the system from anywhere on any device—including mobile
- Promote collaboration with all-inclusive user licensing

ADAPTABLE SOLUTION

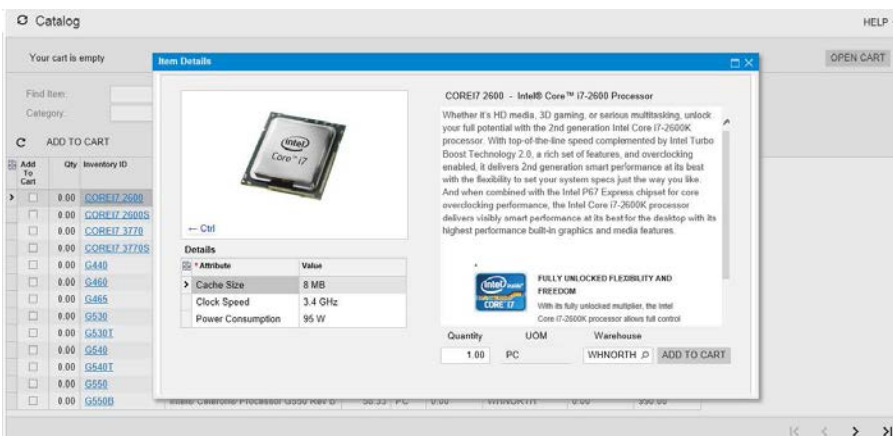

Add and extend:

- Deploy in-house or in a private or public cloud
- Easily configure your solution to fit your needs
- Add capabilities such as CRM or data visualization at any time
- Extend to other solutions and applications beyond ERP

YOUR BUSINESS ACCELERATED

Get a single version of the truth:

- Accelerate business performance and make smarter decisions with automated processes, real-time data collection, financial analyses, and forecasting
- No per user pricing – system scales as your business grows
